Principal's September Newsletter

The start of the school year has now entered the 5th week of school. The dust is settling for our students and the 9th grade students are finding their way around campus. There have been some great events that have already happened.

Our Senior Sunrise for the Class of 2025 was held on 8/21 and over 120 seniors participated in the event while being served a pancake breakfast by teachers and volunteers.

Back to School Night on the evening of 8/21 was attended by over 300 parents, guardians and students. Teachers did an excellent job presenting to parents during the evening.

FFA on 8/28 help their annual meeting with students in the Auditorium before going outside for a fun game of slip n slide kickball. There is nothing like sliding into a base across water on a hot August day. It was nice to see students playing, laughing and enjoying time together.

There are many other events on schedule for September. Please see the list of upcoming events at the bottom of the newsletter.

Time to celebrate great things involving staff and students of King City High School being recognize state wide and nationally.

Congratulations to our FFA Agriculture Department Staff for being recognized and voted as the BEST Outstanding Large size 4-6 person teaching Agriculture Education Program in the State of California.

Congratulations to all our Advance Placement (AP) Teachers for their hard work with our AP Students. It is with great pleasure to announce that 54 AP Capstone Diploma and AP Seminar and Research Certificates were given out to King City High School Students who took AP tests last May. Over 2,500 schools participated and approximately 21,000 earned AP Capstone Diplomas and 11,100 earned AP Seminar and Research Certificates. Congratulations to our hard-working Mustang students and staff.

Some new start up programs and communication platforms have been implemented to start the school year. We have Pro Youth Afterschool Program in Room 172 this year. They work with students after school to provide support to all students and tutoring. We have also started our afterschool math tutoring with in Room 148 on Tuesdays and Thursdays. Finally, we have another platform in place for parents to receive information regarding school events and news. It is an APP called Nurbli. Please download the APP on your phone to follow or reach out to the school for more information 831-385-5461
